

WATER PIPE REPLACEMENT

Why we replace the water pipes and all fittings in stainless steel

01 PPR

The problem: PPR becomes brittle when exposed to direct sunlight for extended periods

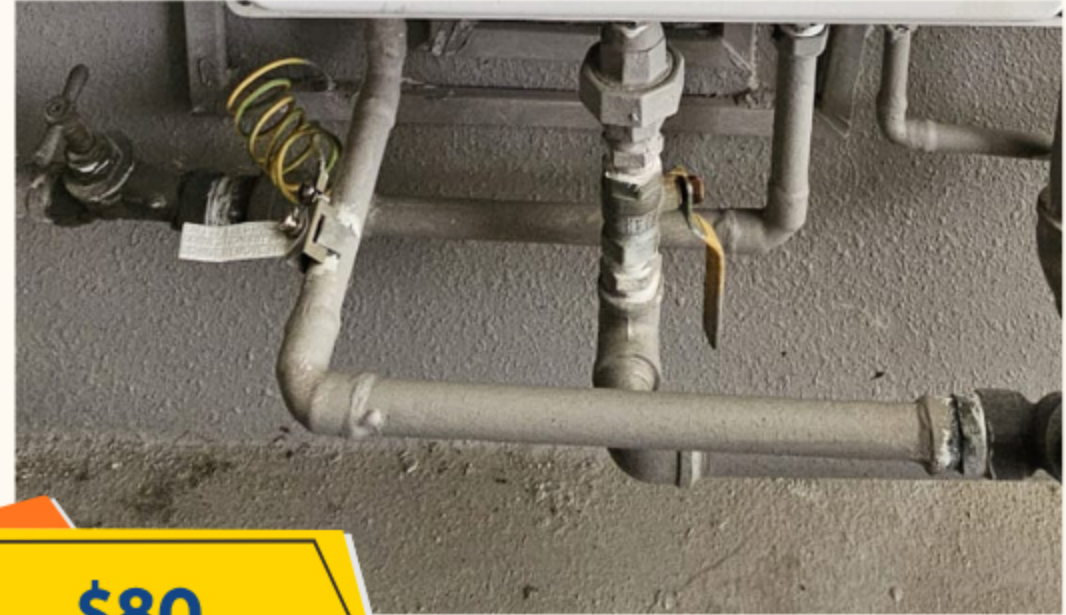

\$80

02 COPPER PIPE

Copper water pipes corrode over time, particularly at joints and connections.

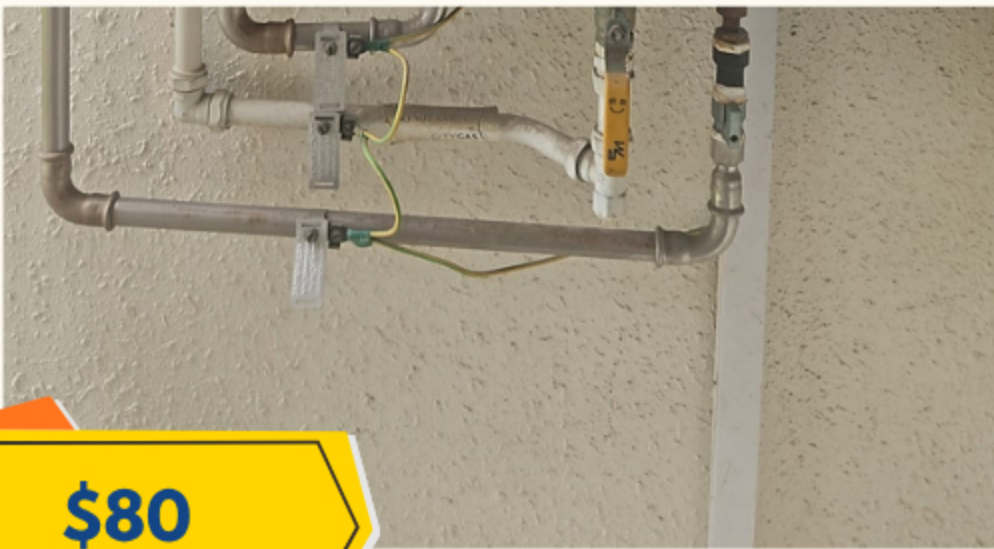

\$80

03 STAINLESS PIPE

Stainless steel is the most durable water pipe material.

\$80

04 MECHFIT SYSTEM

Mechfit is a proprietary press-fit system with specialised fittings.

\$80 + \$150

05 PEX PIPE

PEX (cross-linked polyethylene) is a flexible pipe system used in some newer condominiums.

\$80 + \$150

CONCLUSION

The **\$80** buys new pipes, new fittings, and zero old joints.
